📍 Philippines (Remote) 🔗 morphocafeandstudio.com

PROFESSIONAL SUMMARY

Autodidact builder, entrepreneur, and Google-Certified AI Specialist with a track record of taking complex ideas from concept to completion. I specialize in business process mapping—identifying manual bottlenecks and translating them into automated, hyper-efficient AI engines. A highly resourceful solo operator capable of rapidly prototyping internal systems, integrating emerging tech (LLMs/No-code), and accelerating video/creative production pipelines without requiring constant oversight.

CORE COMPETENCIES

AI & Automation: Business Process Mapping, Multi-step Workflow Automation, Prompt Engineering, Generative AI Implementation (OpenAI/Gemini), Internal Tool Deployment.

Content & Web Engine: AI-Powered Video Editing, Landing Page & Asset Prototyping, E-Commerce Product Visualization, High-Volume Asset Repurposing.

Software Stack: Make/Zapier principles, Descript/Premiere Pro, Google Workspace APIs, AI App Builders, Adobe Creative Suite.

EXPERIENCE & KEY PROJECTS

Tech Lead, Founder & Systems Builder Morpho Cafe and Studio (F&B Operations)

2024 – Present

- **Internal Automation Roadmap:** Acted as the sole builder to identify operational inefficiencies, designing and deploying a custom 5-app ecosystem (POS, KDS, Delivery, Inventory) from the ground up.
- **Hyper-Efficient Workflows:** Transformed manual administrative and order-taking workflows into automated systems, directly resulting in a 30% increase in delivery order capacity.
- **Rapid Deployment:** Took the project from concept to live deployment on the Google Play Store independently, integrating secure payment APIs and cloud databases.

Freelance Video Editor & Media Scaler Independent Clients (Canada, UAE, Italy)

2023 – Present

- **Content Acceleration:** Repurposed raw event and influencer footage into high-performing, fast-paced short-form social media creatives for international markets.
- **E-Commerce Assets:** Executed high-priority special projects, delivering agency-quality product composites for global brands (AHA Sparkling Water, Ruffles) to drive paid media performance.

- **Independent Execution:** Operated with full ownership of projects, delivering high-volume output with minimal oversight while adapting quickly to shifting brand requirements.

AI Application Prototyper

2025 – 2026

Independent Software Project

- **Rapid Prototyping:** Built and deployed "MLBB Coach Master," a complex coaching application requiring advanced logic, database management, and interactive UI/UX design.
- **Process Streamlining:** Designed AI-assisted tracking systems to automate educational administrative tasks, proving the ability to onboard non-technical users onto new workflows.

CERTIFICATIONS

- **Gemini Certification for University Students** – Google (86% Assessment Score)
- **Generative AI for Educators** – Google Edu
