📍 Philippines (Remote) 🔗 morphocafeandstudio.com

PROFESSIONAL SUMMARY

Business owner and Google-Certified tech specialist who builds flawless, error-free financial tracking systems. As a cafe co-owner, I specialize in identifying operational bottlenecks and using technology to automate bookkeeping, reconcile supplier discrepancies, and track ad spend with 100% accuracy. Proven track record of managing daily P&L, invoicing, and deploying verification systems in Google Sheets that eliminate human error and manual data entry.

CORE COMPETENCIES

Data & Finance: Advanced Google Sheets (Verification Systems), Bookkeeping, Financial Reconciliation, Meta Ads Reporting, Client Invoicing, P&L Management.

Tech & Automation: Workflow Automation, Custom Internal Tools, Logic Mapping, Prompt Engineering, Business Systems Design.

Software Stack: Meta Ads Business Manager, Google Workspace, AI App Builders, Slack/Telegram.

EXPERIENCE & KEY PROJECTS

Tech Lead & Co-Owner (Finance & Operations)

2024 – Present

Morpho Cafe and Studio

- **Financial Management & Bookkeeping:** Manage daily P&L, reconcile supplier invoices, calculate fee percentages, and track revenue across multiple delivery channels to ensure 100% financial accuracy.
- **Systems Automation:** Replaced manual ticketing and accounting with a custom 5-app ecosystem built using AI (POS, Inventory Manager, Delivery), completely eliminating manual calculation errors.
- **Revenue Tracking:** Integrated payment APIs and built automated dashboards to track cash flow and outstanding payments, resulting in a highly organized and scalable financial system.

Freelance Meta Ads Manager & Creative

2023 – Present

Independent Clients (Canada, UAE, Italy)

- **Meta Ads Tracking:** Navigated Meta Ads Business Manager for client accounts, extracting spend data, monitoring campaign budgets, and ensuring precise tracking of advertising KPIs.
- **Client Billing & Administration:** Managed international client contracts, maintained accurate financial records, generated invoices, and tracked outstanding payments.
- **Project Management:** Delivered high-value assets for international brands (AHA Sparkling Water, Ruffles) while independently adhering to strict project budgets, daily processes, and deadlines.

Application Developer (Data Logic & Verification)

2025 – 2026

Independent Software Project

- **Complex Data Systems:** Built "MLBB Coach Master," an application requiring advanced logic mapping, statistical cross-referencing, and verification protocols.
- **Workflow Automation:** Designed tracking systems to automate administrative reporting, drastically reducing manual data entry hours and eliminating discrepancy errors.

CERTIFICATIONS

- **Gemini Certification for University Students** – Google (86% Assessment Score)
- **Generative AI for Educators** – Google Edu
