PROFESSIONAL SUMMARY

Business owner, educator, and Google-Certified AI Specialist who builds functional, revenue-generating systems. I specialize in identifying operational bottlenecks and using AI-assisted development to build custom internal tools, workflow automations, and high-converting visual assets. Proven track record of launching apps to the Google Play Store and increasing business revenue by 30% through targeted digital transformation.

CORE COMPETENCIES

AI & Tech: Workflow Automation, Custom App Building (No-Code/AI-Assisted), API & Payment Integration, Prompt Engineering, Business Systems Design.

Creative & Design: E-Commerce Product Compositing (Amazon/Shopify), Brand Identity & Logo Design, Social Media Content Creation, UI/UX Design.

Software Stack: AI App Builders, Adobe Photoshop, Adobe Premiere Pro, Canva Pro, Google Workspace.

EXPERIENCE & KEY PROJECTS

Tech Lead & Co-Owner Morpho Cafe and Studio

2024 – Present

- **Digital Transformation:** Identified inefficiencies in manual ticketing and delivery, replacing them with a custom 5-app ecosystem built using AI (POS, Customer Delivery App, Inventory Manager, Kitchen Display System, Rider Tracking).
- **Revenue Impact:** Increased delivery order revenue by 30% in the first 30 days of app launch by eliminating manual bottlenecks.
- **Deployment:** Successfully integrated payment APIs and published the Customer Delivery app on the Google Play Store.

Freelance E-Commerce Designer & Video Editor International Clients (Canada, UAE, Italy)

2023 – Present

- **Amazon FBA Compositing:** Designed high-converting, professional product composites for major international brands including AHA Sparkling Water (Coca-Cola) and Ruffles, adhering to strict Art Director brandbook guidelines.
- **Brand Identity:** Developed comprehensive logo and branding packages for national academic and research organizations, including PARPHEM and NAPESS.

- **Video Production:** Edited long-form event reportage videos for clients in Florence, Italy, and fast-paced, optimized short-form social media content for the UAE market.

Application Developer (Independent Software)

2025 – 2026

Esports & Education Tools

- **MLBB Coach Master:** Built a complex esports coaching application featuring a Draft Simulator, Coaching Playbook, Roster Management, and War Room analysis, demonstrating advanced logic mapping and UI/UX design.
- **Workflow Automation:** Automated administrative and grading workflows for educational roles to drastically reduce manual data entry hours.

CERTIFICATIONS

- **Gemini Certification for University Students** – Google (86% Assessment Score)
- **Generative AI for Educators** – Google Edu
